

### **REMARKS**

Applicant has amended claim 83 as shown above. The claim now recites "... passing current through a member to move a first member mechanically coupled to the member relative to a second member ... ." The amendment to claim 83 deletes an inadvertently added word and thus clarifies the claim language. No new matter has been added.

Claims 14, 86 and 88, that were previously withdrawn, have been included in the listing of claims in view of the Examiner's withdrawing the restriction requirement with respect to these claims<sup>1</sup>.

Applicant requests the Examiner to enter the above mentioned claim amendment, because the case is in condition for allowance, the amendment does not change the scope of claim 83 and is clearly supported.<sup>2</sup> Further, the amendment requires minimal consideration and no further search and could not have been earlier presented since it was noticed by Applicant during preparations to pay the issue fee.

This amendment is being filed concurrently with the payment of the issue fee. Please apply any other charges or credits to Deposit Account No. 06-1050, referencing Attorney Docket No. 08935-0294001.

Respectfully submitted,

Date: January 7, 2010
